

THINK BIG ACT FAST

Lital recently was a keynote at our first ever virtual conference. She was FANTASTIC - incredibly thought provoking and extremely well received by the attendees. Her content is so valuable and relevant for business owners, especially during this very challenging time.

Our members, like most business owners, are rethinking and reinventing their companies. Her presentation on digital disruption allowed the audience to think about their businesses in a different way and imagine new possibilities.

I look forward to her speaking at future WPO events!
